[EPA-R08-RCRA-2023-0424; FRL 11356-02-R8]

South Dakota: Authorization of State Hazardous Waste Management Program Revisions and Incorporation by Reference**AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) is proposing to grant authorization to the State of South Dakota for the changes to its hazardous waste program under the Solid Waste Disposal Act, as amended, commonly referred to as the Resource Conservation and Recovery Act (RCRA). The EPA has determined that these changes satisfy all requirements needed to qualify for final authorization, and is authorizing the State's changes through a direct final action which can be found in the "Rules and Regulations" section of this **Federal Register**. In addition, the EPA is proposing to codify in the regulations entitled "Approved State Hazardous Waste Management Programs," South Dakota's authorized hazardous waste program. The EPA will incorporate by reference into the Code of Federal Regulations (CFR) those provisions of the State regulations that are authorized and that the EPA will enforce under RCRA.

DATES: Send written comments by March 11, 2024.**ADDRESSES:** Submit your comments, identified by Docket ID No. EPA-R08-RCRA-2023-0424 at <https://www.regulations.gov>. Follow the detailed instructions for submitting comments electronically or by other methods in the **ADDRESSES** section of the direct final rule located in the Rules section of this **Federal Register**.**FOR FURTHER INFORMATION CONTACT:** Moye Lin at (303) 312-6667, lin.moye@epa.gov.**SUPPLEMENTARY INFORMATION:** In the "Rules and Regulations" section of this **Federal Register**, the EPA is authorizing changes to the South Dakota program, in addition to codifying and incorporating by reference the State's hazardous waste program as a direct final rule. The EPA did not make a proposal prior to the direct final rule because we believe

these actions are not controversial and do not expect comments that oppose them. We have explained the reasons for this authorization and incorporation by reference in the preamble to the direct final rule.

Unless EPA receives written comments that oppose the authorization and incorporation by reference during the comment period, the direct final rule will become effective on the date it establishes, and we will not take further action on this proposal. If we get comments that oppose the authorization, we will withdraw the direct final rule and it will not take immediate effect. We will then respond to public comments in a later final rule based on this proposal. You may not have another opportunity for comment. If you want to comment on this action, you must do so at this time.

Modifying Emissions Limits for the 24.25-24.45 GHz and 24.75-25.25 GHz Bands; Correction**AGENCY:** Federal Communications Commission.**ACTION:** Proposed rule; correction.

SUMMARY: In this document, the Commission is correcting the docket number in a proposed rule that appeared in the **Federal Register** on January 29, 2024. The document proposes to implement certain decisions regarding the 24.25-27.5 GHz band made in the World Radiocommunication Conference held by the International Telecommunication Union (ITU) in 2019 (WRC-19). Specifically, the Commission proposes to align part 30 of the Commission's rules for mobile operations with the Resolution 750 limits on unwanted emissions into the passive 23.6-24.0 GHz band that were adopted at WRC-19. These proposed rule changes would

help to facilitate the protection of passive sensors used for weather forecasting and scientific research in the 23.6 GHz–24.0 GHz band, while continuing to promote flexible commercial use of the 24.25–24.45 GHz and 24.75–25.25 GHz bands (collectively, 24 GHz band). The Commission also seeks comment on alternatives to the proposals it makes, and on other related issues.

DATES: Comments are due on or before February 28, 2024; reply comments are due on or before March 14, 2024.

Written comments on the Initial Regulatory Flexibility Analysis (IRFA) in this document must have a separate and distinct heading designating them as responses to the IRFA and must be submitted by the public on or before February 28, 2024.

SUPPLEMENTARY INFORMATION: The Commission is correcting the Preamble and Regulatory Flexibility Act sections of proposed rule FR Doc. 2024–01681 by correcting the docket number.

Correction

In FR Doc. 2024–01681 appearing on page 5440 in the **Federal Register** of Monday, January 29, 2024, the following corrections are made:

ET Docket No. 21–186 [Corrected]

1. On page 5440, in the first column, in the Preamble, the Agency Docket Number is corrected to read as “[ET Docket No. 21–186; FCC 23–114; FR ID 198341]”.

2. On page 5440, in the third column, in **SUPPLEMENTARY INFORMATION**, the Regulatory Flexibility Act section is corrected to read as “The Commission seeks comment on potential rule and policy changes contained in the NPRM, and accordingly, has prepared an IRFA. The IRFA for this NPRM in ET Docket No. 21–186 is set forth below in this document and written public comments are requested. Comments must be filed by the deadlines for comments on the NPRM indicated under the **DATES** section of this document and must have a separate and distinct heading designating them as responses to the IRFA. The Commission reminds commenters to file in the appropriate docket: ET Docket No. 21–186.”

Priority Application Review for Broadcast Stations That Provide Local Journalism or Other Locally Originated Programming

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: In this document, the Federal Communications Commission (Commission) issues a Notice of Proposed Rulemaking to prioritize processing review of certain applications filed by commercial and noncommercial radio and television broadcast stations that provide locally originated programming. The Commission’s goal is to provide additional incentive to stations to provide programming that responds to the needs and interests of the communities they are licensed to serve. In 2017, the Commission eliminated the rule that required broadcast stations to maintain a main studio located in or near their community of license, as well as the associated requirement that the main studio have program origination capability. We propose this processing priority in order to further encourage radio and TV stations to serve their community of license with local journalism or other locally originated programming. Such prioritization would be granted to renewal applicants, as well as applicants for assignment or transfer of license, that certify they provide locally originated programming, thereby advancing our efforts to promote localism and serve local communities across the nation.

DATES: Comments may be filed on or before March 11, 2024, and reply comments may be filed on or before April 8, 2024.

ADDRESSES: You may submit comments and reply comments, identified by MB Docket No. 24–14, by any of the following methods:

- *Electronic Filers:* Comments may be filed electronically using the internet by accessing the ECFS: <https://apps.fcc.gov/ecfs/>.

- *Paper Filers:* Parties who choose to file by paper must file an original and one copy of each filing.

- Filings can be sent by commercial overnight courier, or by first-class or overnight U.S. Postal Service mail. All filings must be addressed to the Commission’s Secretary, Office of the

Secretary, Federal Communications Commission.

- Commercial overnight mail (other than U.S. Postal Service Express Mail and Priority Mail) must be sent to 9050 Junction Drive, Annapolis Junction, MD 20701.

- U.S. Postal Service first-class, Express, and Priority mail must be addressed to 45 L Street NE, Washington, DC 20554.

- Effective March 19, 2020, and until further notice, the Commission no longer accepts any hand or messenger delivered filings. This is a temporary measure taken to help protect the health and safety of individuals, and to mitigate the transmission of COVID–19. Synopsis

I. Background

1. One of a broadcaster’s fundamental public service obligations is to provide programming that is responsive to the needs and interests of its community of license. The Communications Act requires the Commission to determine, in the case of applications for licenses, “whether the public interest, convenience, and necessity will be served by granting such application.” The Commission has consistently interpreted this requirement to mean that licensees must air programming
